

Autumn is here

## Autumn is here

Hello There!

It is Autumn in Brazil until June 20th, so why not use this season as a theme for our kids to learn about it.

Here are some songs you can use together with this booklet, they are great to review colors and numbers.

[Orange, Red, Yellow and Brown](#)

[How many leaves do you see?](#)

We also recommend the kids watch [this cartoon](#) that explains why do leaves change color.

As we know that kids have been home for a long time and they probably have a lot of energy inside, we will add some activities to exercise their Kinesthetic Intelligence. Hope they have fun!

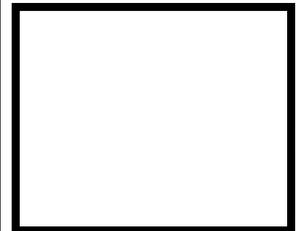

Print the activities and have fun with the kids.

## What's the Pattern?

Go over the images with the children and have them decide which image should come next by following the pattern. Cut the images at the bottom and have the kids glue them in the right order

## My Better Half

Can you draw the other half of the Picture? Finish and then color it. This activity is great to practice observation, symmetry, motor skills.

## Memory Game / Go Fish

Cut out the cards below and use them to play a memory game or Go Fish.

**Memory Game** is a traditional game, where all the cards are facing down and players take turns turning two cards at a time trying to find the pairs. Have the participants say what they see in the cards out loud.

**Go Fish** is a card game where 4 cards are dealt to each player (a group of 2 or 3 people). The remaining cards are messed up, facing down between the players. Players hold their cards so they are able to see them, but no one else can.

Before starting the game, all of the players put any pairs they happen to have in their hand down and earn a point for each pair.

Starting with the youngest player and moving clockwise, the player asks one of their opponents "Do you have a \_\_\_\_" The card requested should be one the player has in their hand.

If the opponent has the card, they must give it to the player who earns a point for making a match. If the opponent does not have the card they say "Go Fish!"

The player must then pick a single card from the messed up, face down pile of cards. If they make a pair, they place it down and earn a point.

The game is won one by the person with the most points when all the cards are gone, or by the person who gets 10 points first, or by the person with the most points at the end of a set time limit

## Move like a...

Cut the cards below and put them facing down. Raffle one and everyone has to move like it says. You can vote to see who has the best move or just make sure everyone accomplishes the activity.

Another option is to play a miming game. Some raffles a card and mime and the rest of the group has to guess it.

## Autumn Leaves are falling down.

Draw the right hand and the wrist on the paper. Using swabs or index finger put them in Red, Orange, Yellow and Green paint, and stamp around the hand/ finger drawing.

Make a beautiful Autumn Tree.
